

Rabbit Facts: From the Largest to Smallest Breeds, Top Speed, and Names for Male, Female, and Baby Rabbits

1. Which is the largest breed of rabbit?

The [Flemish Giant rabbit](#) is considered the largest among domestic rabbits and is also called the “Gentle Giant” or the “King of Rabbits”.

Its weight varies between 15 and 25 pounds, and its length measures between 2.5 and 4 feet.

It has a tractable, quiet, and friendly nature and is native to Belgium.

It has a long body, strong legs, a glossy coat, and big ears and is available in black, blue, fawn, sandy, white, or grey.

2. Which is the smallest rabbit?

Among all rabbits, the [pygmy rabbit](#) (*Brachylagus idahoensis*) is considered the smallest.

The pygmy rabbit normally weighs less than a pound and is found in North America.

It has small ears, tiny legs, and greyish-brown fur.

Its average weight ranges between 0.8 and 1.1 pounds, and its size varies from 9 to 12 inches.

3. At what speed can a rabbit run?

They are able to run at a speed of about 25 to 45 mph.

Domestic rabbits can reach up to a speed of 25 mph, while wild rabbits such as jackrabbits are able to run at a speed of 45 mph.

4. Do you know that male, female, and baby rabbits are known by different names?

Among rabbits, males are called bucks, females are called does, and baby rabbits are called kits.
